Subject: Last Time Buy Reminder PCI9656-AD66BI

Dear Valued PLX Customer:

This letter is a reminder that PLX intends to cease production of the part:

PCI9656-AD66BI.

You can continue to place orders on this device until November 30 2003, and PLX will accept ship dates as late as May 30 2004.

We recommend that you convert your PCI9656-AD66BI designs over to PCI9656-BA66BI. PLX has generated a conversion document entitled "PCI 9656BA AD Conversion r1.01" that describes the differences between the PCI 9656AD and PCI 9656BA, and helps the user determine if an existing design will be impacted by the revision change. It can be found online in the 9656 Toolbox at <http://www.plxtech.com/products/9656/default.htm>.

To ensure timely delivery of your orders, all purchase orders with deliveries after November 30 2003 must be signed by your company buyer to acknowledge both the quantity as well as to the fact that these products are non-cancelable, non-returnable, and non-reschedulable.

In addition, special payment terms such as a Letter of Credit or ProForma may be required on purchase orders with deliveries after November 30, 2003. Your PLX sales team will work with you to determine if any of these terms apply to your company.

We at PLX would like to thank you for patronage, and look forward to continuing assisting you in your endeavors.

Thank you and regards

PLX Technology
